## TECHNICAL DATA SHEET

# Brazilian Gum Rosin

(Pinus Elliottii)

Produced in a highly-controlled process from 100% pinus elliottii, resulting in a clear & uniform product. We also stipulate a 40% maximum abietic acid content to help ensure low crystallinity.

### Specifications

Color, Gardner <sup>1</sup>	WW
Softening Point (Ring and Ball), °C	72 - 81
Acid Number (mg KOH/g), min	158 – 170
Saponification Number, mg KOH/g	160 – 170
Unsaponifiable, % max	10
Total VOCs, % max	1.5
Abietic acid content, % max	40

<sup>1</sup>50% in toluene

Available in 25 kg polypropylene bags & 250 kg galvanized metal drums.
